

Next edition of Artmospheric Festival will be held in the middle of July. The sixth annual gathering of artists, experimentalists, music and alternative culture lovers will take place 13-16.07 at its magical home in the heart of Balkan Mountains, Bulgaria.

A long aural journey into the world of atmospheric electronic music starts on Friday afternoon and lasts until midday on Monday. A crystal-clear Funktion-one system will guide you through various kinds of conceptual sound from ambient through abstract idm jazz to floating dub techno , psybient, progressive and deep tripping techno.

The parallel workshop program features various interesting lectures, mostly in the field of ecology and sustainable development. Festival map includes also: alternative mini-stage, night cinema, "ezo:spheric" - yoga & massage area, khamak garden, first aid point, recycling point, camping area with fresh mountain water and eco-wc, vegetarian kitchen, childarea, chaishop, etc. Other activities in the area include tangem paragliding flights organized by Skynomad or horseback riding lessons at Chemernik biofarm.

Pre-sale tickets are available through [Eventim.bg](https://eventim.bg). Detailed information can be found on the official festival website - [artmospheric.org](https://artmospheric.org)
